How we keep your information Safe

During your service with us, we collect lots of personal and sensitive information about you, and we take keeping your data safe very seriously. To accomplish this, we have our own expert teams and use a mature information security management system so that your data will be treated appropriately and won't end up in the wrong hands. To achieve this, we use a three-layered approach: People, Processes and Technology.

We use a number of technology systems to control how your data is accessed and secured. Our technology covers multiple levels of our systems to ensure we can control your data from end to end. All our users are trained in the best ways of handling personal data and confidentiality and follow strict policies and procedures to ensure security is kept to a high level.

We operate role-based access control which means users access to your personal information is limited dependant on the task they carry out as part of their role.

We test our systems regularly using both internal and external testers and auditor to ensure weaknesses are identified and rectified.

In all our operations we will:
